2. As shown above, the USPTO has issued (sometimes multiple) Notices of Allowance for each of applications 10/042,165, 10/042,179, and 10/042,166 (the "allowed applications").
3. Due to the above-described citations of new potentially material prior art in the present and/or other related applications, and inherent administrative delays in processing the discovery of that art, Applicant has been required to file repeated Requests for Continuing Examination accompanied by Information Disclosure Statements to fulfill Applicant's duty of disclosure for the allowed applications, and thus, Applicant has been prevented from permitting the allowed applications to proceed promptly to issuance.
4. These difficulties and delays in permitting the allowed applications to proceed promptly to issuance potentially:
 - a. undermine and/or frustrate the USPTO's stated goal of compact prosecution;
 - b. "cause unnecessary delay or needless increase in the cost of prosecution before the Office"; and/or
 - c. increase the probability of the USPTO issuing one or more invalid and/or unenforceable patents.

PATENT
APPLICATION # 10/042,142
ATTORNEY DOCKET # 2000-0672 (1014-199)

5. To prevent and/or minimize these potentialities, Applicant respectfully requests suspension for six (6) months of this application (and, via concurrently filed Suspension Requests, all the pending related applications except the allowed applications) to permit the allowed applications to safely issue, and plans to promptly request resumption of prosecution once each of the allowed applications has issued.

The Office is hereby authorized to charge any additional fees or credit any overpayments under 37 C.F.R. 1.16 or 1.17 to Deposit Account No. 50-2504. The Examiner is invited to contact the undersigned at 434-972-9988 to discuss any matter regarding this application.

Respectfully submitted,

Michael Haynes PLC
